18. Che cos'è un motore di ricerca?

18. THE STATUE OF LIBERTY: nicknamed Lady Liberty, is a great statue (93m from the ground to the tip of the torch and 46m from the pedestal surface to the tip of the torch) at the entrance of the Hudson River port from Liberty Island to New York City, as an ideal welcome to all those arriving in the USA. The sculpture is by Frederic Auguste Bartholdi, while the metallic structure is made by Gustave Eiffel
